Dear teachers and parents:

Piano, Level 2 presents important new information for the student. The learning sequence is carefully graded to assure steady progress, while the full-color illustrations entertain and reinforce along the way. The selection of pieces includes original works as well as familiar folk songs and pop styles in creative, enjoyable arrangements.

The companion books—**Theory** and **Performance**—are coordinated page-by-page (see *Contents*) to provide thorough reinforcement of basic concepts. The **Bastien Music Flashcards** may be assigned for extra drill in learning notes, key signatures, music signs, and terms. The **Bastien Music Notebook**, an assignment book, may be used throughout the series.

BASTIEN PIANO BASICS is a method designed for achievement and success. We offer you our best wishes for the rich rewards music can bring to each child's life.

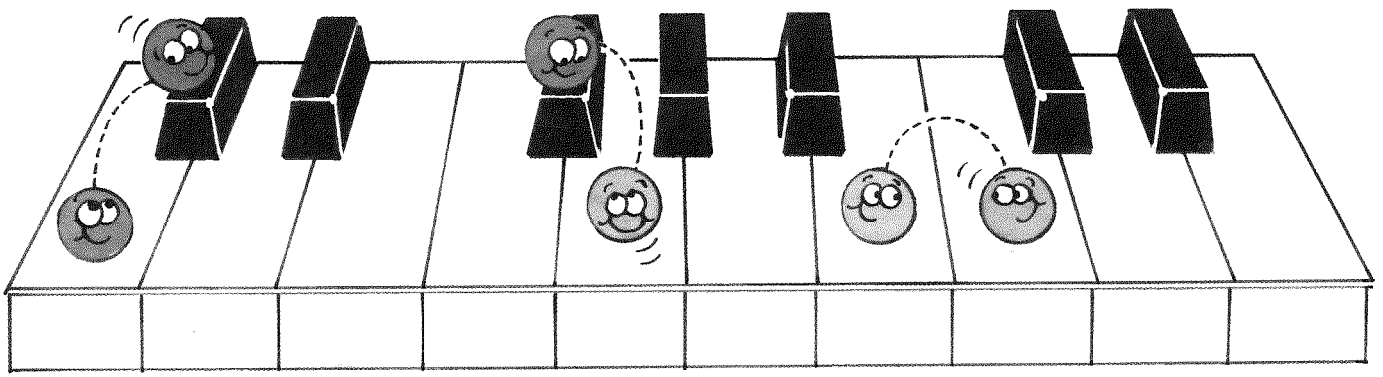
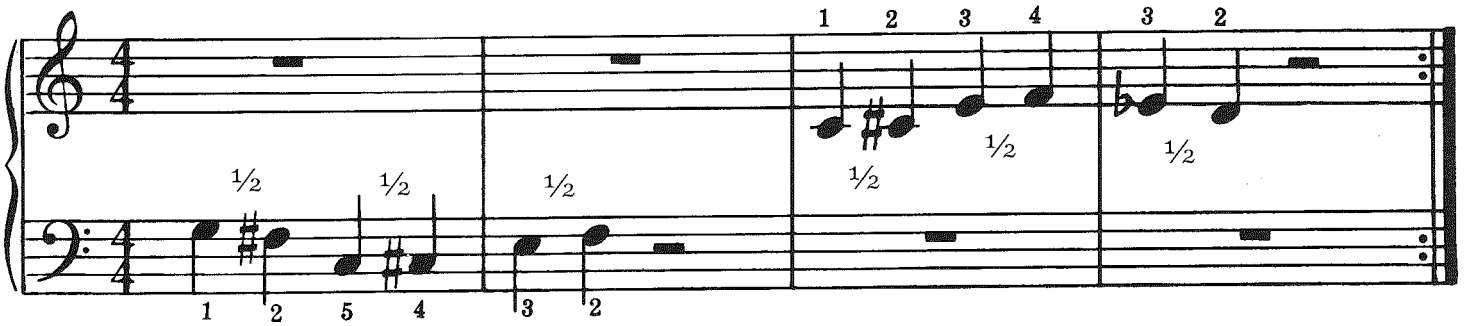
Half Step

A **half step** is the distance from one key to the very next key, with **no key between.**

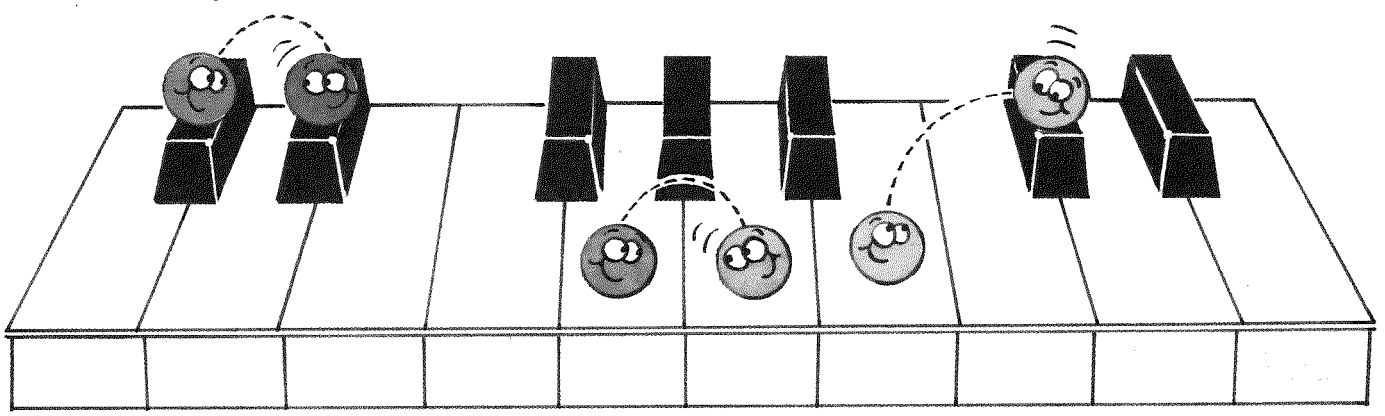


Play these half steps.

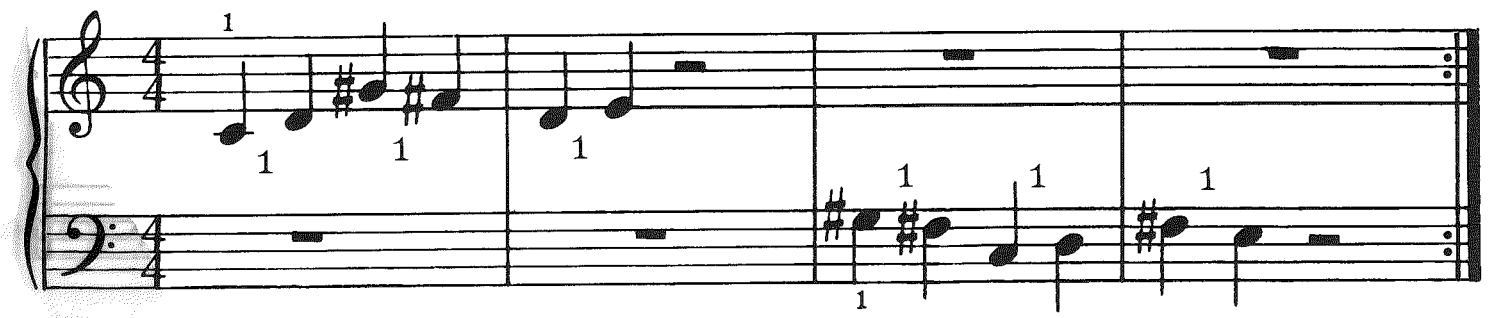


Whole Step

A **whole step** is the distance from one key to the next key, with **one key between.**



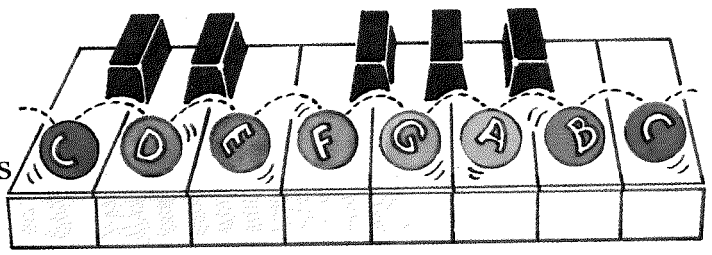
Play these whole steps.

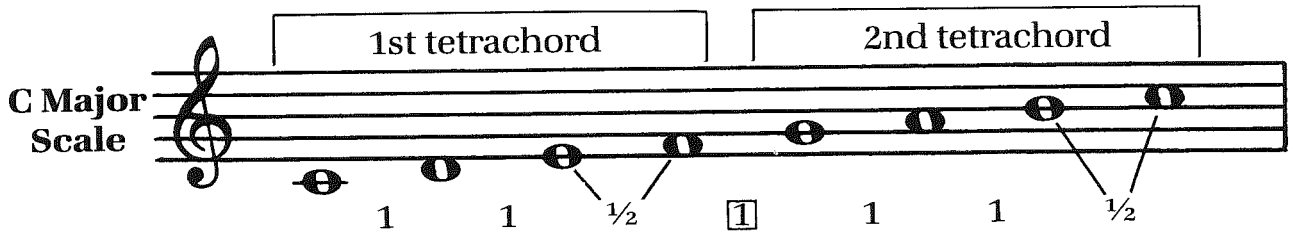


Major Scale

A **Major scale** has eight tones formed in a pattern of whole and half steps.
The scale is divided into two equal parts, each having four notes. Each part is called a **tetrachord.** The pattern for each tetrachord is

whole step (1), **whole step** (1), **half step** (½).

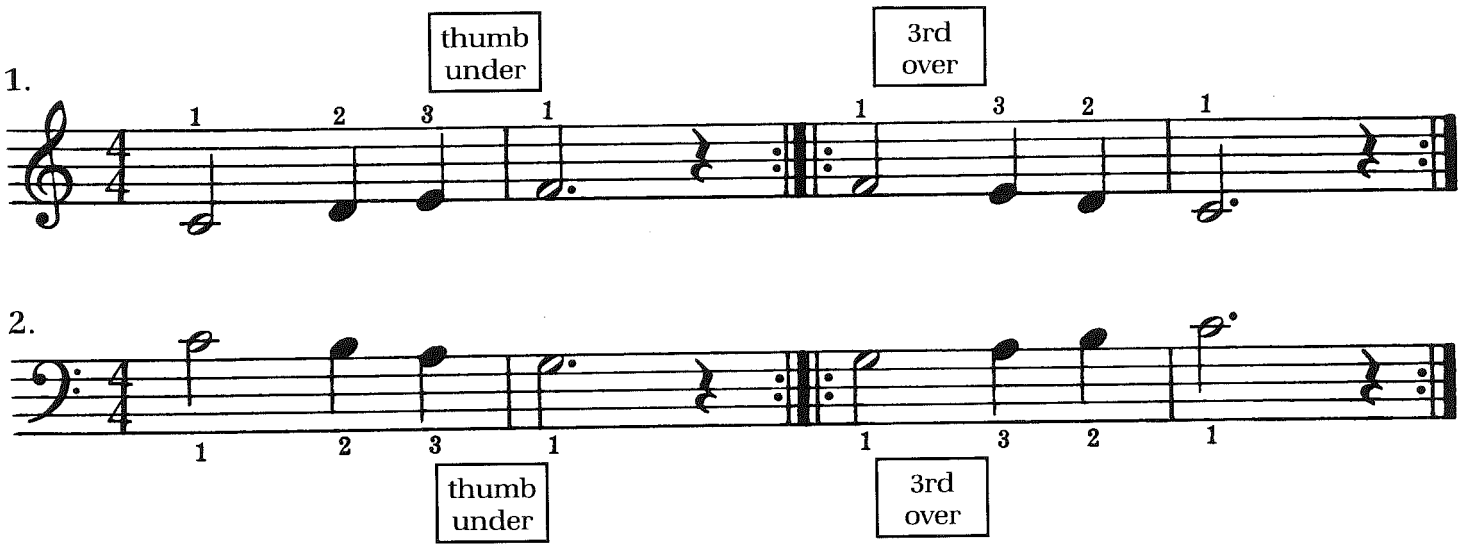




Each tetrachord is joined by a whole step.

Warm-ups

Play each of these scale warm-ups several times a day.



C Major Scale

Play hands separately first. **Memorize** this fingering.

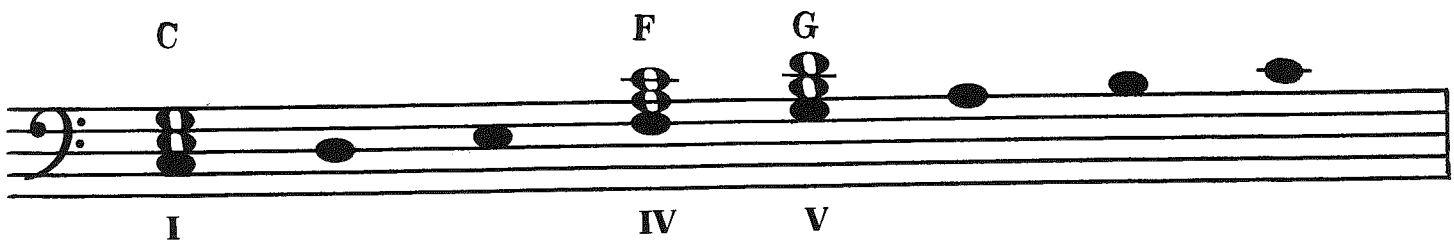
Primary Chords

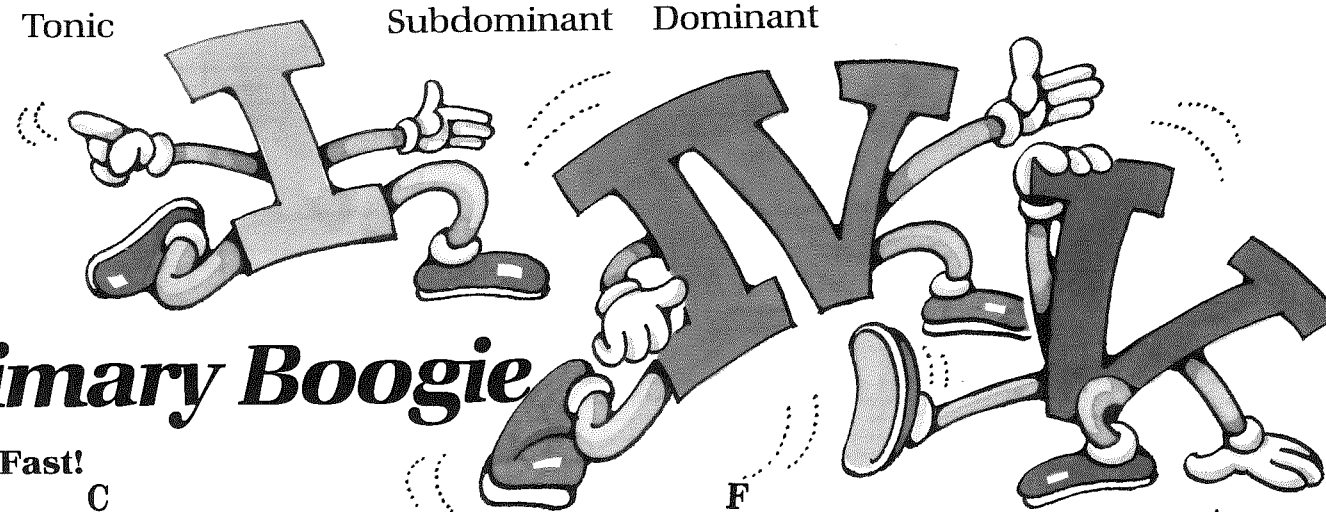
Chords built on the first, fourth, and fifth degrees of the scale are called **primary chords.**

Each chord has a Roman numeral: I, IV, V.
Each chord has a name:

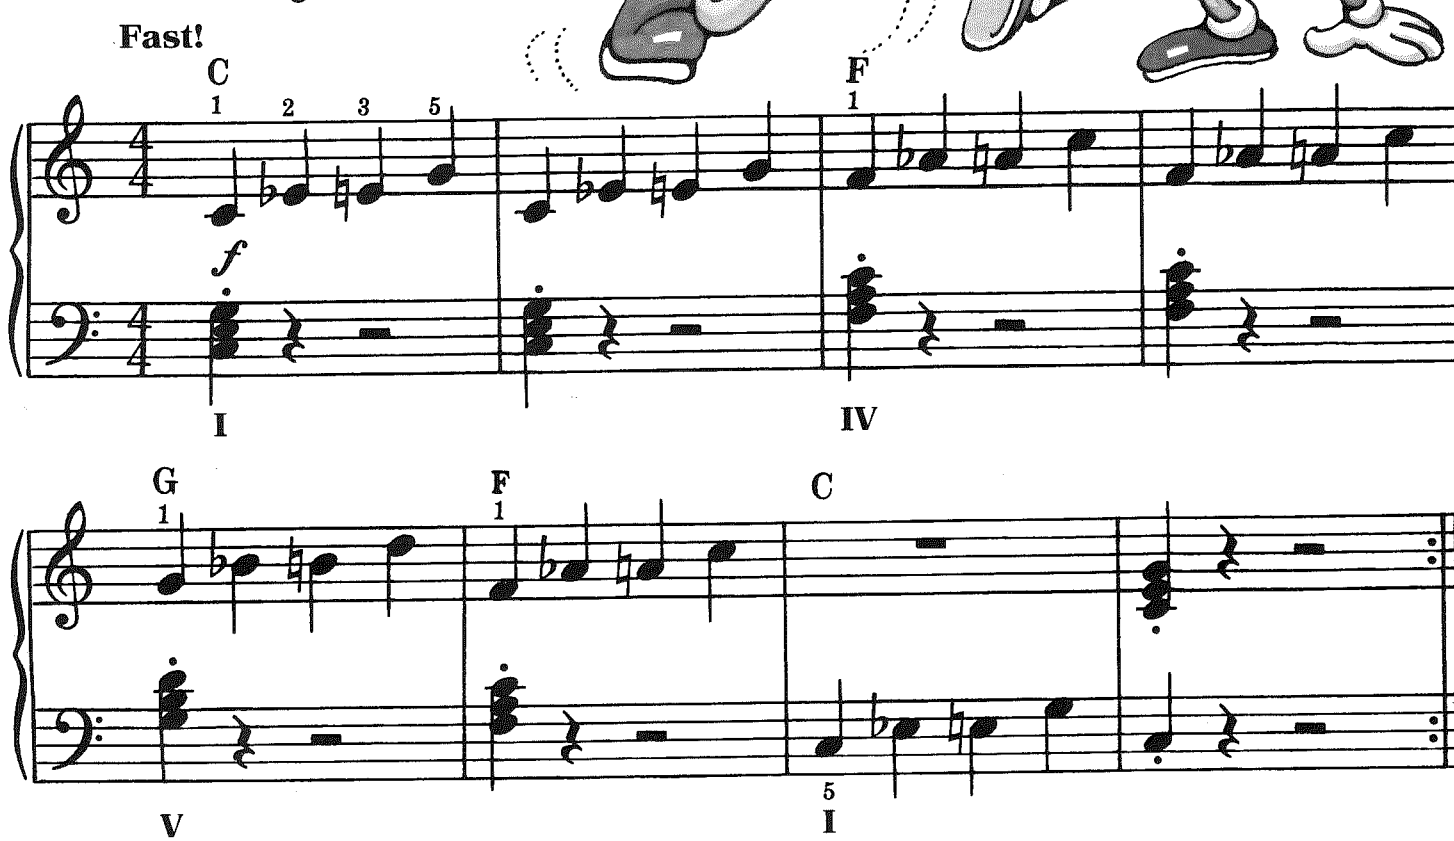
I chord = **tonic** chord
IV chord = **subdominant** chord
V chord = **dominant** chord

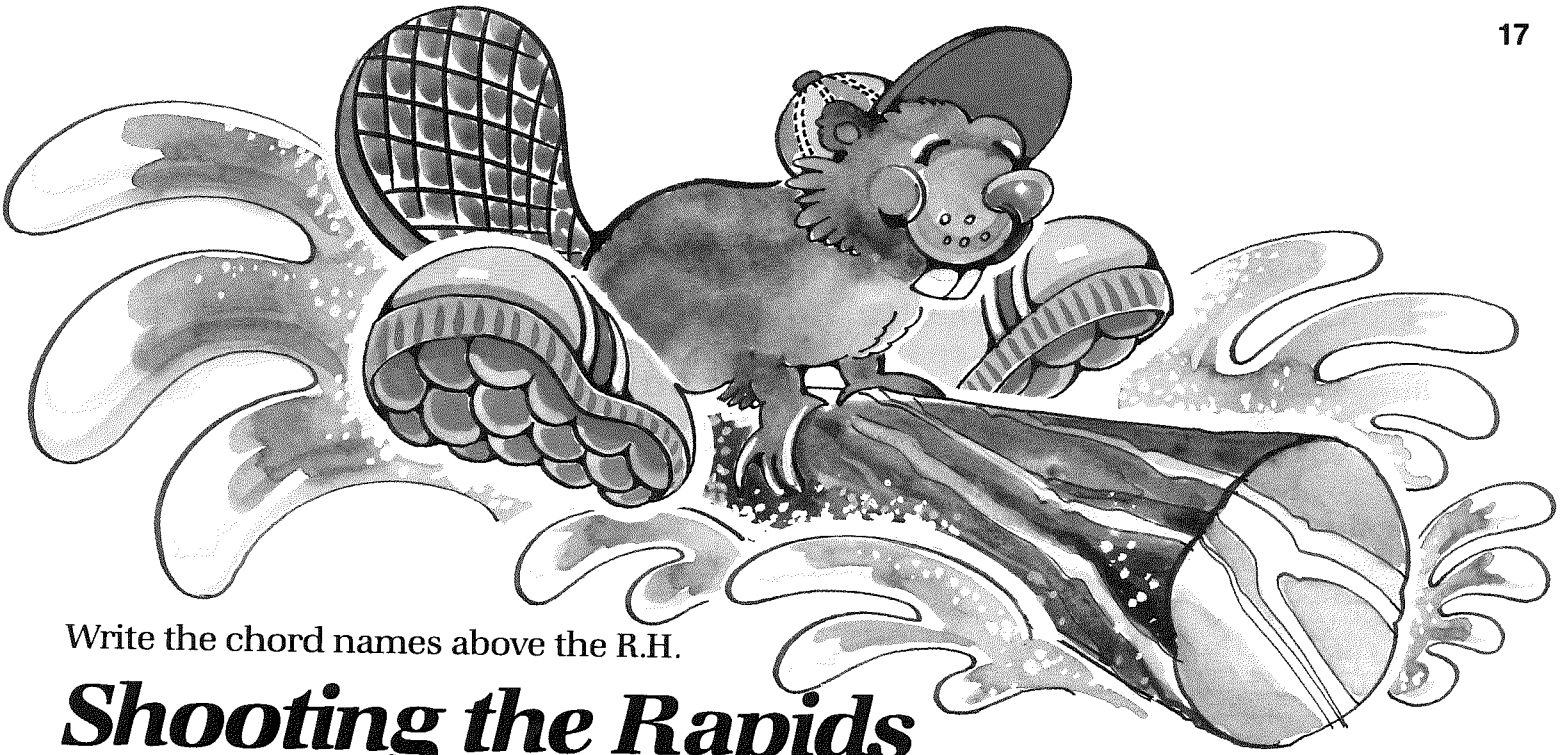
Play these primary chords in C Major.





Primary Boogie





Write the chord names above the R.H.

Shooting the Rapids

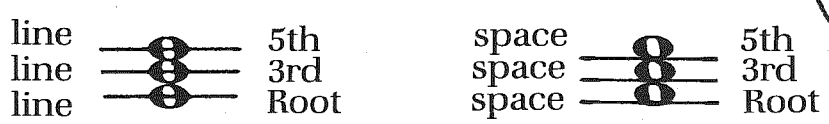
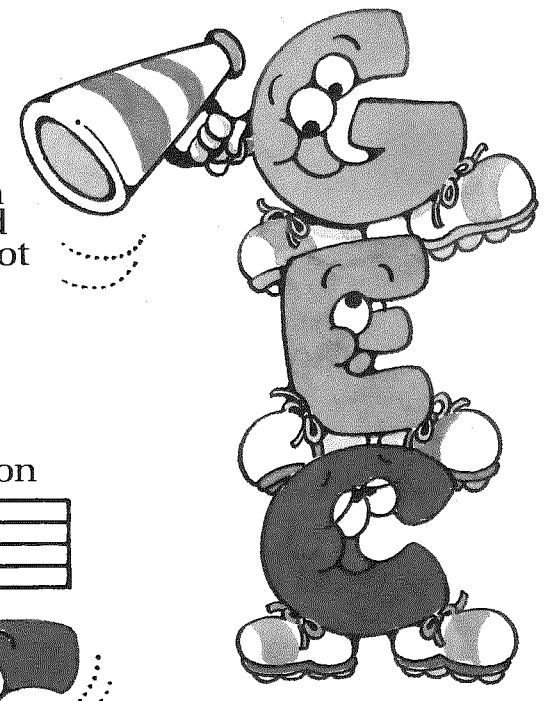
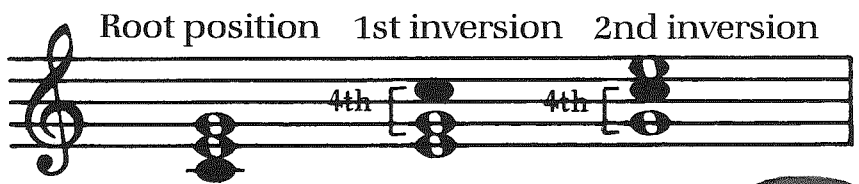
Triads and Inversions

A **triad** (a three-note chord) in **root position** looks like this:

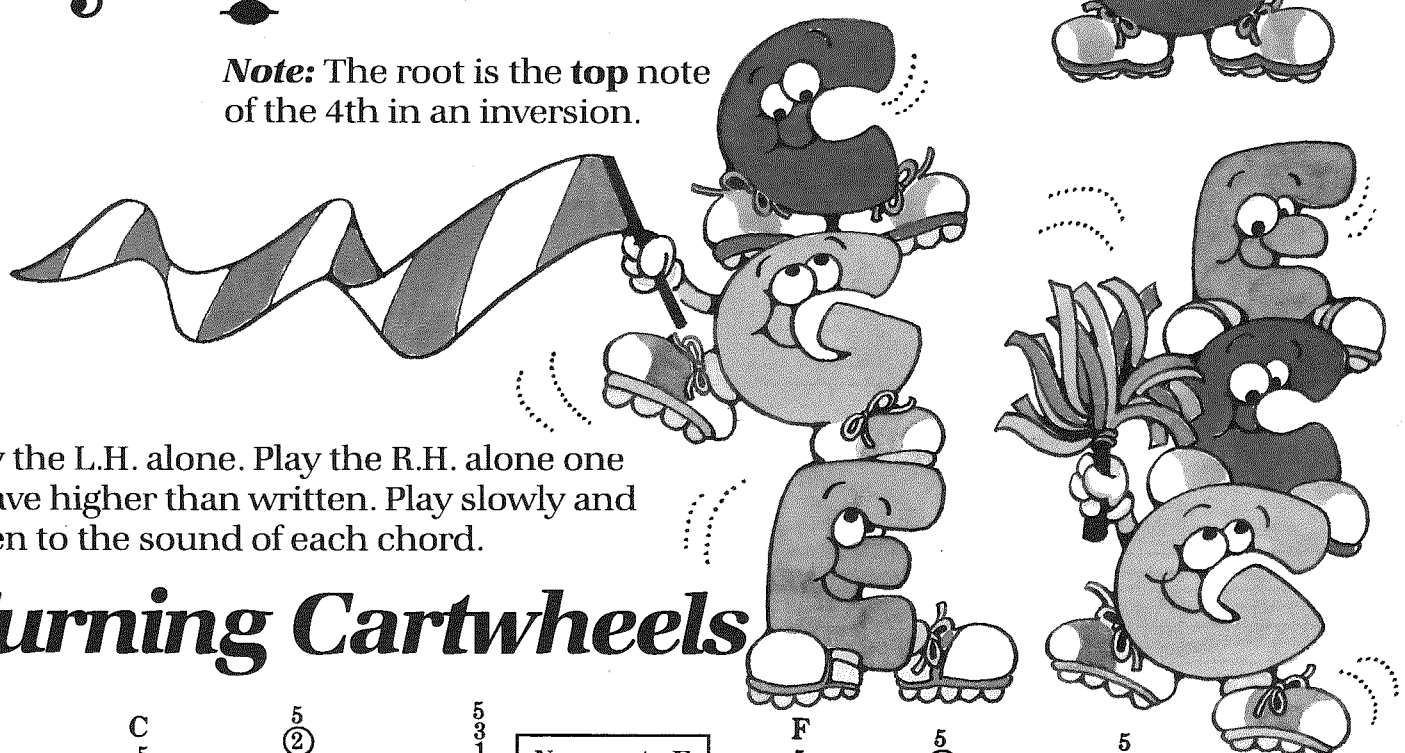




An **inversion** is a different arrangement of the notes in a triad:

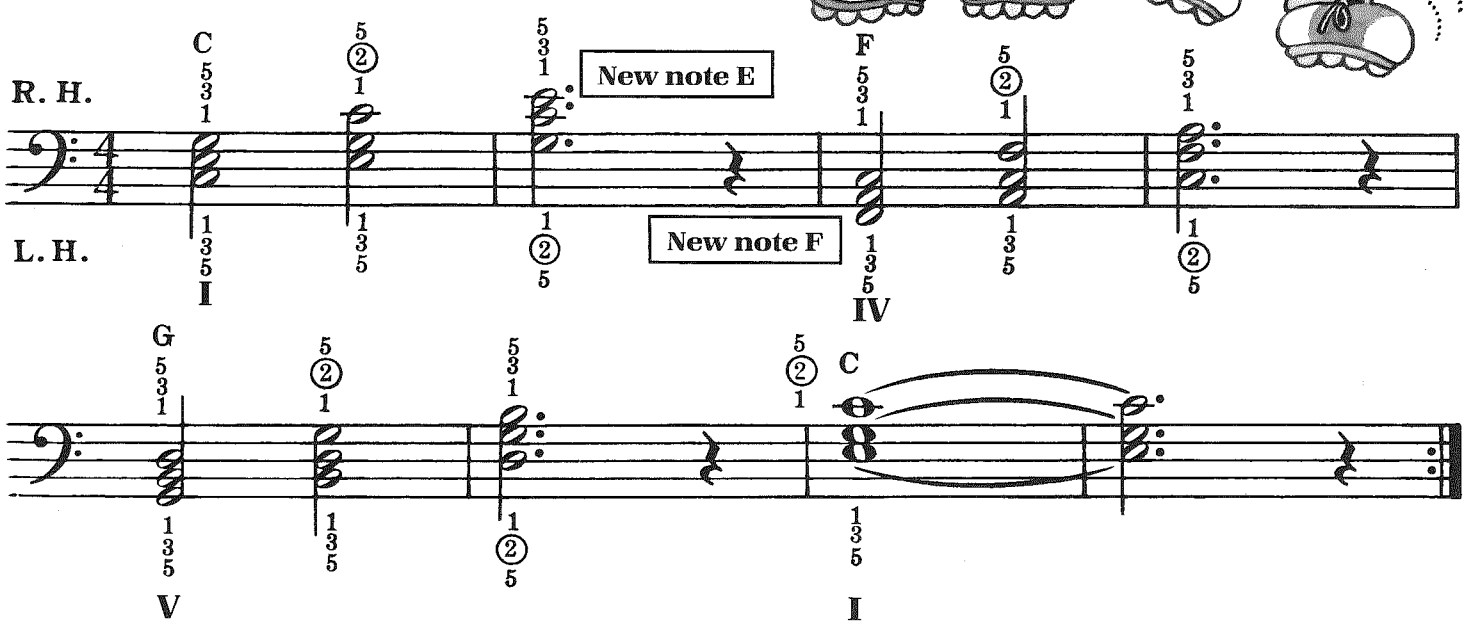


Note: The root is the **top** note of the 4th in an inversion.



Play the L.H. alone. Play the R.H. alone one octave higher than written. Play slowly and listen to the sound of each chord.

Turning Cartwheels

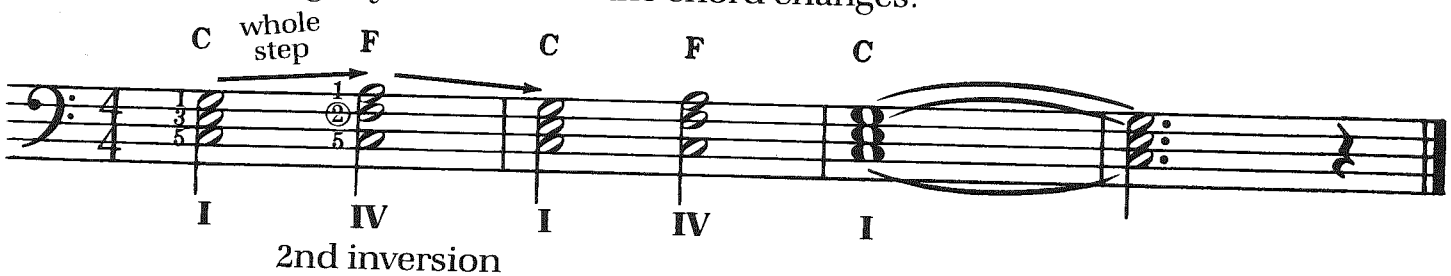


Chord Progression I IV

A **chord progression** is a change from one chord to another. The chord progression I IV is easier to play by playing the IV chord in its **2nd inversion.** By using the inversion for the IV chord the hand can stay in place rather than moving to play root position chords.

Warm-up

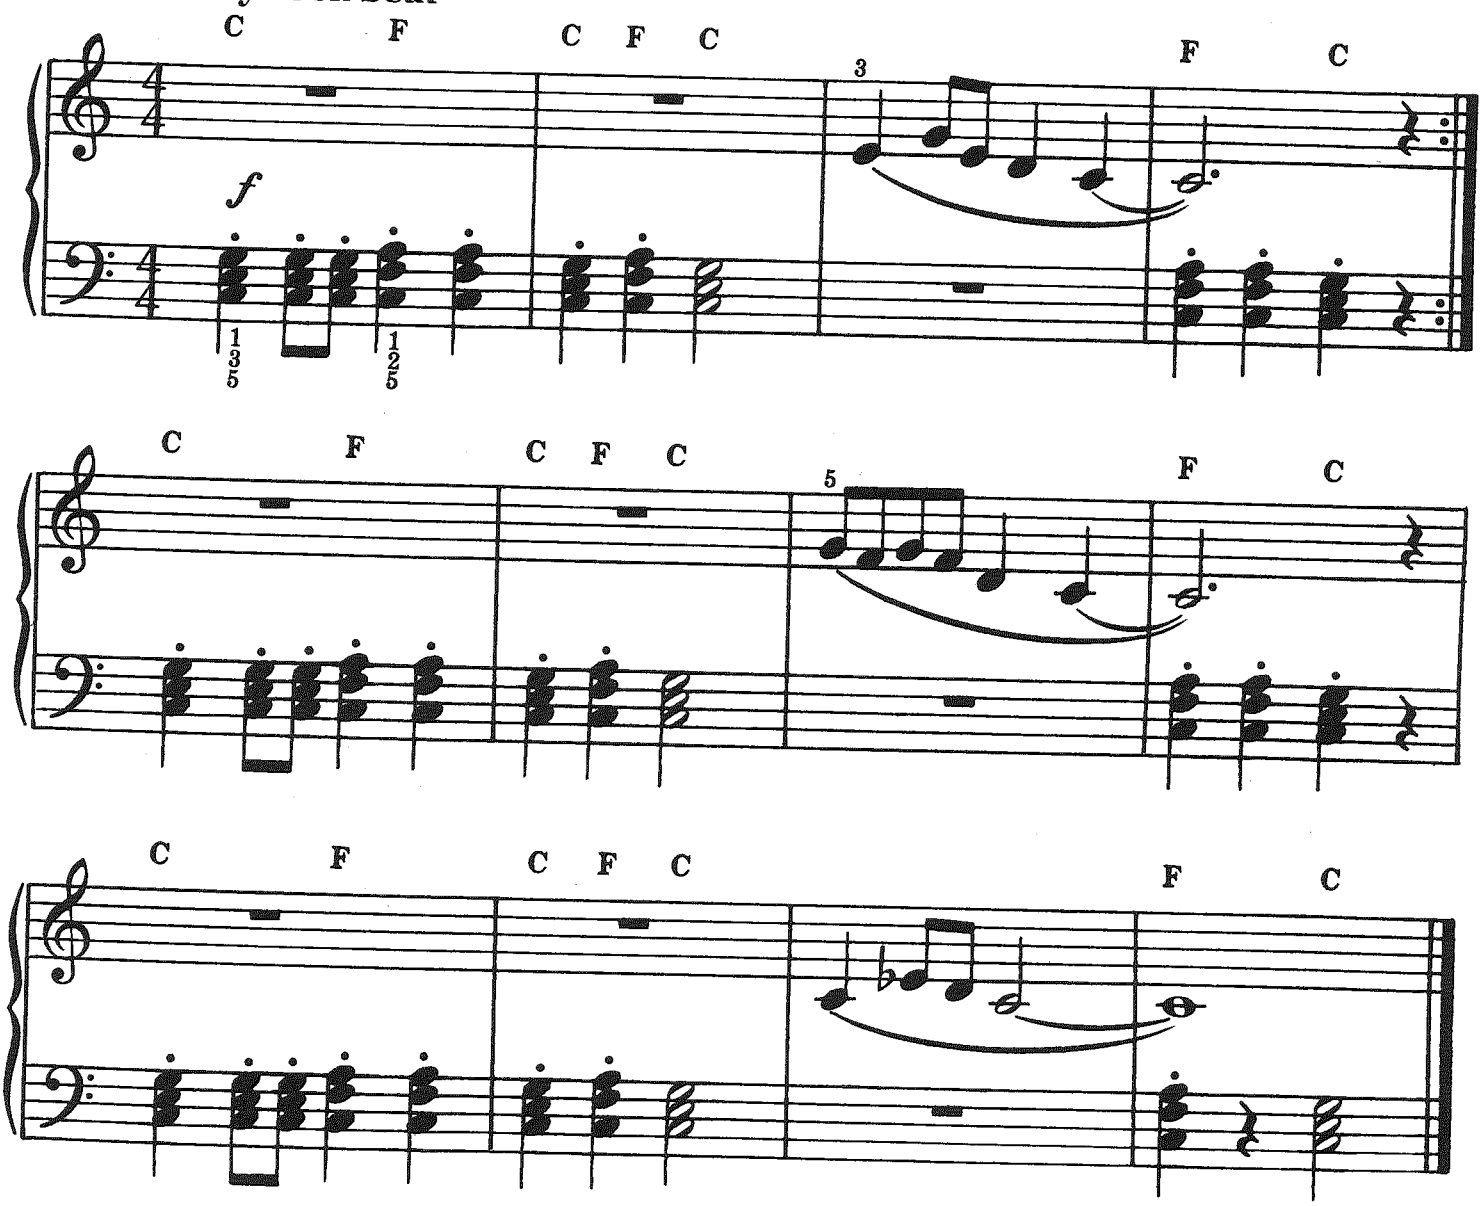
Practice this **chord progression** in C Major. Play by "feel," without looking at your hand for the chord changes.



2nd inversion

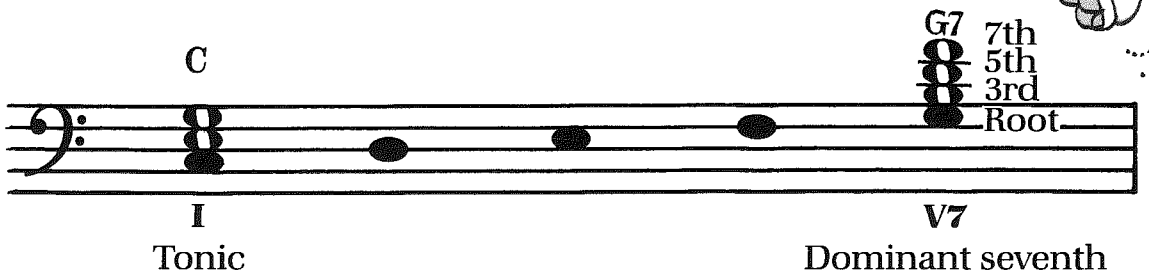
Rock!

Steady rock beat

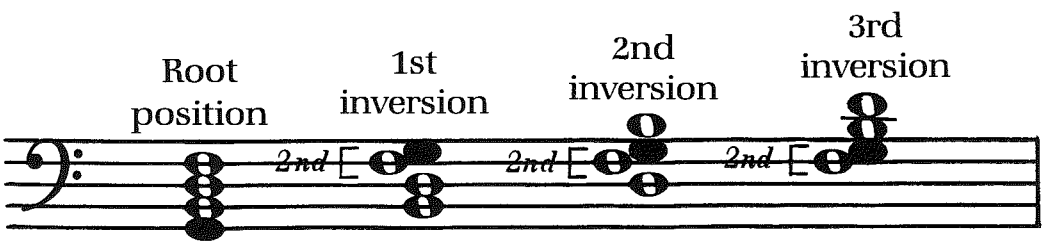


Chord Progression I V7

The complete V7 chord in root position has four notes.
The V7 chord is built on the fifth scale degree.

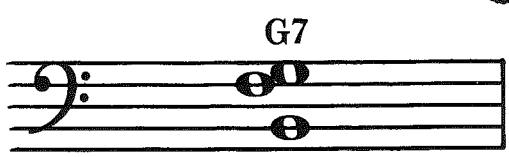


The V7 chord has **three** inversions.



Note: The root is the **top** note of the 2nd in an inversion.

The chord progression I V7 is easier to play when the V7 chord is in its **1st inversion**.
Notice that only three notes are played. The interval of the 5th (D) above the root is left out.



Warm-up

Practice this **chord progression** in C Major. Play by "feel," without looking at your hand for the chord changes.

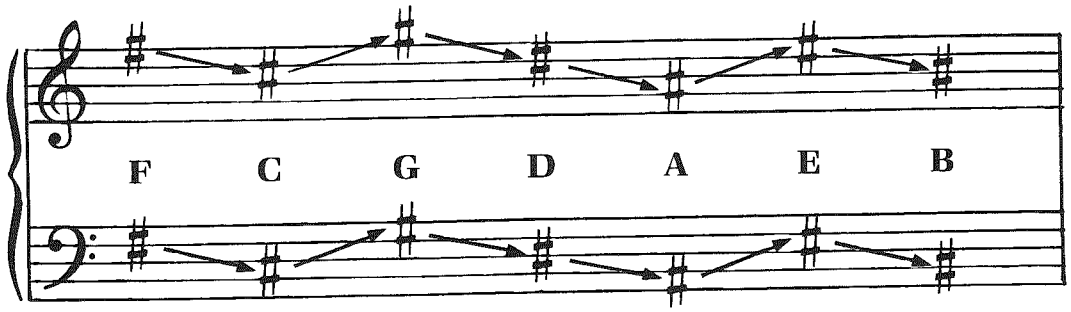
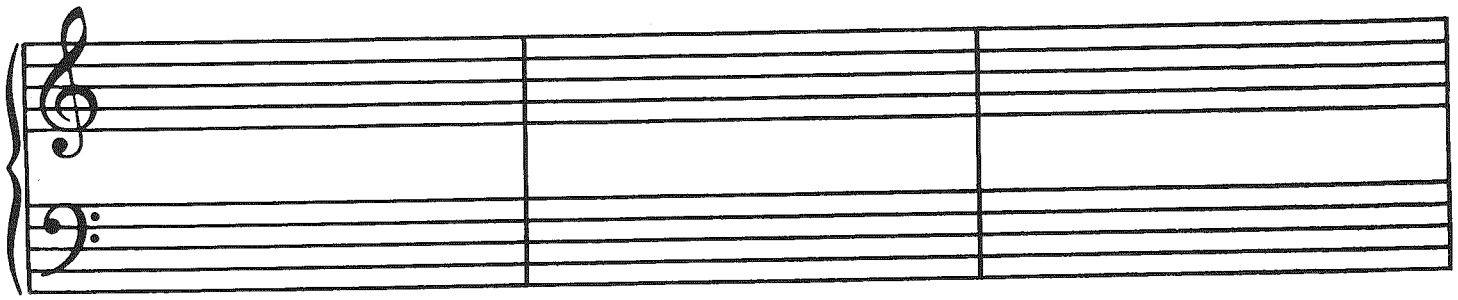
The **sharps** are *always* written in the same order on the staff. **Memorize** this order.



Write the order of sharps three times on this staff.*



Major Sharp Key Signatures

The **key signature** at the beginning of each staff tells you which notes to play sharp or flat **throughout** the piece, and the main tonality, or **key**, of the piece.

To find the **sharp** key signatures, name the *last sharp* to the right in the key signature. Then name the *next letter* in the music alphabet (go up a half step). This is the name of the Major key.
